🔗 Portfolio

📄 PROFESSIONAL SUMMARY

As aspiring **AI/ML Engineer** with a strong foundation in **Python, Machine Learning, Deep Learning, Generative AI, Natural Language Processing (NLP), Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), and OpenAI API**. Proficient in **data preprocessing, data visualization, statistical analysis, SQL, Microsoft Excel, Power BI, and Tableau** for data-driven decision-making. Skilled in **TensorFlow, Flask, Git, GitHub, Docker, and Kubernetes**, with knowledge of supervised and unsupervised learning algorithms, model evaluation, and AI application development. Passionate about building scalable AI solutions and leveraging data to solve real-world business problems while continuously learning emerging AI technologies

📁 WORK EXPERIENCE

06/2024 – 09/2024

Artificial Intelligence & Machine learning Trainee, ARDENT COMPUTECH PRIVATE LIMITED

- Built a **Student Placement Prediction ML model** using Python to classify placement outcomes based on academic and student data.
- Performed **data cleaning, preprocessing, and feature engineering** to prepare structured datasets for model training.
- Implemented **Logistic Regression and regression-based models** using Scikit-learn to improve prediction accuracy.
- Evaluated model performance with **confusion matrix, accuracy score, and validation testing**.
- Used **Pandas, NumPy, Matplotlib, and Scikit-learn** for data analysis, visualization, and end-to-end ML pipeline execution.

08/2025 – 11/2025

Data Analyst & Data Scientist., IoTechworld Avigation Pvt Ltd Gurugram, IN

- Analyzed, cleaned, and transformed large datasets using **Python** and **SQL**, ensuring high-quality data for reporting, analytics, and business decision-making.
- Built and evaluated **Machine Learning** models using **Regression, Classification, Decision Trees, SVM, and K-Means Clustering**, improving prediction accuracy and supporting business insights.
- Performed **exploratory data analysis (EDA)** and created interactive dashboards using **Power BI, Tableau, Excel, and Python** to visualize trends, KPIs, and business performance.
- Applied **statistical analysis**, including **Probability, Precision, Recall, F1-Score, and Bias-Variance Tradeoff**, to evaluate model performance and optimize analytical solutions.
- Developed AI-powered data analysis workflows using **Python** and **Generative AI** concepts to automate data processing, generate insights, and improve operational efficiency.

🎓 EDUCATION

08/2022 – 05/2026

Bachelor of Technology in Computer Science Engineering (CGPA: 7.27),
Gautam Buddha University, Greater Noida, UP

2021

Class XII (Senior Secondary) - 73%
Lord Krishna Public School, Hathras

2019

Class X (Secondary) - 75%
Lord Krishna Public School, Hathras

🧠 SKILLS

Languages

Python, MySQL, HTML/CSS, Basic of C and C++

Frameworks and Libraries

Flask, Numpy, Keras, TensorFlow, Streamlit, Scikit-Learn, Matplotlib, SciPy, Seaborn, Pandas, PySpark, Apache Airflow, Apache Hadoop, Databricks

Tools & Platforms

Git & GitHub, VS Code, Docker, PyCharm, Jupyter Notebook, Google Colab, Microsoft Excel, MATLAB, Data Warehousing,

SOFT SKILLS

Problem Solving, Team Collaboration, Communication
Adaptability, Attention to Detail

📁 PROJECTS

AI Resume Analyzer 📄

- Built an **AI-based web application** that analyzes resumes against job descriptions and generates ATS compatibility scores with actionable improvement suggestions.
- Developed a **resume parsing and NLP pipeline** to extract structured data (skills, education, experience) from PDF/DOCX files and perform keyword matching.
- Implemented **cosine similarity-based text comparison** to measure resume relevance and produce a **0–100% match score with gap analysis**.

PrepNova AI 📄

- Developed an AI-powered mock interview platform using **React.js, Node.js, and Firebase** to simulate real-world interview experiences.
- Integrated **Google Gemini API** for **dynamic question generation, context-aware answer evaluation, and AI-driven feedback**.
- Implemented **Vapi Voice AI** with **real-time voice interaction, speech processing**, and conversational interview simulation.
- Designed an **analytics dashboard** with **performance scoring, progress tracking, data visualization, and personalized feedback** to enhance interview readiness.
